SUMMARY

Hello i am a Junior Frontend Developer.
Also a pilot, a skier and a former diver :)
Github: <https://github.com/HaCa4>

EXPERIENCE

12/2021 - 06/2022

Jr.Frontend Developer

Rasyonel Software Development

It was a study app for high school students. It was downloaded for more than 200.000 in Google Play and Apple Store. Between January-May, 2022 it's website visited more than 500.000 times. Rasyonel was handling various lectures and about 30.000 questions.

In the last days of May, 2022, project is sold and delivered to one of the leading e-learning companies in Turkey. I worked on not only coding but also product development, marketing, sale and delivery negotiations.

- Next.Js, MUI, Firebase (Auth & Firestore), Formik

08/2021 - 12/2021

Jr.Frontend Developer

Fanus Media

I involved in a team at Fanus Media (Izmir, Turkey) where i learned the core principles of clean, effective coding and ui design.

In a 4-week sprint, we builded a new website and an admin panel for managing the reservations for Healtha Global (Istanbul,Turkey) a medical tourism company.

- www.helthaglobal.com
- React, Styled-Components

I participated another project after Healtha Global. We developed a new website for Mars Investment(Istanbul, Turkey) an investment solutions company.

At the same time we build a back-office web app in which jobs, orders and meetings of more than 37 partners worldwide and more than 3000 solution partners can be tracked easily by the personel of Mars Investment.

- www.marsinvestment.com
- React, Redux, MUI, Firebase Authentication

07/2019 - 06/2021

Head of Aerodrome Operations and Air Traffic Operations

Turkish Air Force, 7th Jet Base and International Airport (Malatya, Turkey)

In 2019, I have been assigned as the Commander of both Aerodrome Operations and Air Traffic Operation Squadrons at 7th Main Jet Base by TuAF Headquarters. I have become one of the youngest TuAF personnel (with 27-Age) who has reached these cross-duty-positions. Some of additional responsibilities over previous role:

- Member of new personnel recruitment committee
- Project Management and Implementation about Human Resources, Aeronautical Services
- All of the personnel, equipments, buildings and operation plannings in two critical squadrons
- All the needs and requirements for external troops which are located cyclically in the airport
- Arranging air traffic safety meetings with Ankara FIR, JAFC (Joint Air Force Control Center), Incirlik Approach Control Center, Diyarbakir Approach Control, Adiyaman Airport, GAP Airport,

Kurecik RADAR (USAREUR) for 3-month periods

- Runway conditions and aerodrome facilities (According to international/national regulations)
- Operating Nav-Aids.(Air Traffic RADARs, radio channels etc.)

07/2019 - 06/2020

Deputy Commander of 7th Main Jet Base Flight Operations Group

Turkish Air Force, 7th Jet Base and International Airport (Malatya, Turkey)

In August, 2019 I have also been assigned as the deputy commander for Flight Group Operations. I have been assigned to this position as additional duty despite of my rank and young age.

I lead strategically high importance tasks (almost totally irrelevant with my specialty areas). I was in charge of intelligence issues, F-35 JSF (Joint Strike Fighter) Integration Division, Flight Operations Planning Division and Aircraft Squadron and my ongoing duties, surely. Some of additional responsibilities over previous role:

- Member of discipline committee
- Anti-Intelligence precautions and regulations
- Judgements of external flight request (for both national and international)
- Public safety meetings with city authorizations
- Regulating rules of UAVs (Unmanned Air Vehicles) activities in the city
- Determining prohibited/restricted/forbidden flight regions
- Budget revising and supply chain

08/2017 - 07/2019

Deputy Head of Aerodrome Operations and Air Traffic Operations

Turkish Air Force, 7th Jet Base and International Airport (Malatya, Turkey)

After two successful years, i have been promoted 2 years earlier and recruited to a position that in charge of 3 more teams and 2 more districts in the Base. In addition, number of personnel under my command increased to 36. Some of additional responsibilities over previous role:

- Participating national aviation meetings
- Determining and offering new regulations about safely management of national air space
- Preparing documentation about the local regulations
- Arranging courses to increase and maintain proficiency level for each role in the teams
- Analyzing and evaluating personnel performance data and scoring accordingly
- Preparing and presenting briefing for higher rank army and state officials such as Ministers, Army Commanders etc
- Personnel qualification tests
- Arranging meetings with TMA(Terminal Maneuvering Area) users (Civil Air Transportation Companies, National Military and Foreign Military Teams(USA, Germany, BAE etc.)), and giving briefing about the local regulations and the general aviation rules

08/2015 - 07/2017

Senior Air Traffic Control Officer

Turkish Air Force, 7th Jet Base and International Airport (Malatya, Turkey)

I was assigned as the head of an excellent team, with 16 highly experienced NCOs and Sergeants, in charge of both civil and military flight operations. I have learned a lot from the crew about professional life, career planning, personal life and human relations, shortly about the life. Some of the responsibilities are:

- Managing and regulating flight operations based on daily, weekly, monthly and yearly schedules.
- Maintaining Flight and Ground Safety
- Handling emergency situations and risk management
- Handling and delivering tasks to team members, depending on their abilities
- Evaluating and optimizing workflow according to CRM regulations
- Reading and checking dozens of National and International regulatory documents
- We have hosted 2 multinational practice campaigns successfully
